Expression of Interest for Group Leader and Staff Scientist Positions

The Biomedical Sciences Research Center "Alexander Fleming" is seeking **independent researchers** to establish their own laboratories, and **Staff Scientists (ΕΛΕ)** to lead and manage FLEMING's research facilities/units.

Independent Researcher positions will be available at the equivalent of assistant professor level (Researcher C) in the following areas:

- **Molecular and cellular mechanisms in inflammation, immunological diseases and cancer**
- **Animal models of cognitive and neurodegenerative diseases**

Staff Scientist positions (level C) will be available for the following units, under the activities of the **INFRAFRONTIER-GR** (www.infrafrontier.gr) and **ELIXIR-GR** National Research Infrastructures:

- **Mouse transgenesis & genome manipulation**
- **Bioimaging**
- **Bioinformatics** (Relevant to Genomics and Functional Genomics)

Initial expressions of interest should be received at secretariat@fleming.gr before **1 March 2015** and must include a CV, a summary of scientific/technical achievements and a statement of research plans.

Calls for applications will be announced in spring/summer 2015.
