

THE BIOMEDICAL SCIENCES RESEARCH CENTER “ALEXANDER FLEMING”

Vari-Athens, (www.fleming.gr)

Coordinates a ‘Network of Excellence’ funded by the European Commission’s 6th Framework Programme on the topic “Integrated functional genomics in mutant mouse models as tools to investigate the complexity of human immunological disease”, (24 European academic and industrial organizations, duration: 5 years, total budget: 11 M€). We are seeking a :

PROJECT MANAGER

who will be responsible for the every day administration and running of the scientific, financial and legal aspects of the project, for optimizing the flow of information between the participants and for reporting to the Project Coordinator and the Project Governing Board. The Project Manager will also act as liaison between the Network partners and the European Commission, will supervise and prepare financial and scientific reports, will supervise the project’s website, and will organize the Network meetings.

The successful candidate will have excellent organization and coordination skills. Previous experience in European Biomedical or other Research projects and/or network management will be considered as an asset.

Competitive remuneration package and very good prospects for personal and professional growth are offered in an excellent working environment.

Please send your application and CV to mugen@fleming.gr.
