

European Federation of Immunological Societies

European Journal of Immunology

European Network of Immunology Institutes

5th ENII EFIS/EJI SUMMER SCHOOL IN ADVANCED IMMUNOLOGY

May 9-16, 2010 • Capo Caccia, Sardinia, Italy

**REGISTRATION
DEADLINE:**
April 1st, 2010

*The number of participants
will be limited to 150*

Conference Venue

**PORTO
CONTE
RESEARCH
CENTRE**

Accommodation

**HOTEL
CAPO
CACCIA**

Summer School Board:

*Paola Castagnoli
Günter Hämmerling
Adrian Hayday
Bernard Malissen
James Di Santo
Maries van den Broek*

Also supported by:

INVITED TUTORS:

Bernd Arnold - Tolerance

Facundo Batista - Imaging B the early events of B cell activation

Paola Castagnoli - Dendritic cell functions

James Di Santo - Diverse roles for NK cells in innate and adaptive immunity

Catherine Fridman - Fc receptors and therapeutic antibodies

Awen Gallimore - Positive and negative influences on tumour immunity

Siamon Gordon - Macrophages in innate and adaptive immunity

Adrian Hayday - Transitional Immunity - a big gap in our understanding of immune surveillance

Bernard Malissen - alpha/beta T cell development and functions

Reina Mebius - Organogenesis of the immune system

Kees Melief - Viruses and Vaccines

Anne O'Garra - Cytokines in the regulation of immune responses

Fiona Powrie - Immune regulation in the intestine: balancing host protective and immune pathological responses

Andreas Radbruch - Inflammation

Alexander Rudensky - Dominant tolerance and regulatory T cells

Maries van den Broek - Antigen presentation and T cell responses

Keynote Lecture • Bruce Beutler
