

## **Post-doctoral research positions at the Institute of immunology, BSRC Fleming**

The laboratory of V. Aidinis at the Institute of immunology, BSRC Alexander Fleming (<http://www.fleming.gr/en/investigators/Aidinis/index.html>) is looking for three post-doctoral research fellows in the context of recently granted research projects focusing on: 1) the role of ATX and LPA signaling in chronic inflammatory disorders (Excellence II/Αριστεία II) and 2) the role of PLA2 in inflammatory neurological disorders (11SYN-1-1258/Συνεργασία II).

The successful post-doctoral fellow, preferably a molecular biologist/immunologist, will be expected to be completely independent, highly motivated and hard working. Post-doctoral applicants should accompany their expression of interest with a detailed CV including research interests, technological skills, peer reviewed publications and contact information from at least two referees.

Fellows will be employed for 18 months with prospects for renewal. Please send expressions of interest to [V.Aidinis@Fleming.gr](mailto:V.Aidinis@Fleming.gr).
