*Immune Hot*

**ERC-funded position**

**PostDoc Scientist**

**Tsoumakidou lab**

**BSRC Fleming | University of Athens - Greece**

We are seeking an **experienced immunologist** to join a dynamic research team working at the intersection of immunology, translational biology, and bioinformatics. The ideal candidate should hold a PhD in immunology and have demonstrated expertise in **in vivo cancer models, multicolour flow cytometry, and gene editing technologies**. The successful applicant will be responsible for developing and implementing novel cancer models, as well as conducting in vivo and ex vivo gene perturbation experiments to investigate the biology of cancer antigen-presenting immune and stromal cells. Maria Tsoumakidou has received 2 million Euro to implement her project artFibro, titled “**Artifying fibroblasts: Perturbation modelling in the lung tumor phase space to rewire fibroblasts for immunotherapy**” (2023-2028).

Expressions of interest should be sent electronically to **Dr. Tsoumakidou** ([tsoumakidou@fleming.gr](mailto:tsoumakidou@fleming.gr)) and should contain a cover letter outlining the candidate's interests and areas of expertise (maximum 1 page long) and a CV including full publication list and contact information of two referees.

**Deadline for expression of interest: 25/07/2025**
