### Expression of Interest for Senior Group Leader Positions

The Biomedical Sciences Research Center "Alexander Fleming" is a top non-profit research organization focusing on scientific and technological excellence, training and innovation in biomedical sciences. The Center has gained international recognition for its pioneering research towards understanding the molecular and cellular basis of human diseases such as autoimmune diseases, cancer, neurodegenerative disorders, osteoporosis, pulmonary fibrosis and others, and the development of new approaches for their diagnosis and treatment.

Fleming is seeking **Senior Researchers** to establish their own laboratories, and pursue high-end research aligning with the Center's strategic prioritization in Research and Innovation.

**Two Senior Researcher** positions will be available at the equivalent of associate or full professor level (Researcher B' or A') in the area of: **Molecular Mechanisms of Disease**

Initial expressions of interest should be received at [positions@fleming.gr](mailto:positions@fleming.gr) before 16<sup>th</sup> of July 2018 and must include a CV, a summary of scientific achievements and a statement of research plans.

Calls for applications will be announced in early autumn 2018.
