ERC-funded postdoctoral positions

Kollias lab | BSRC Fleming

We are seeking motivated postdoctoral fellows to join a highly interactive research team that operates across immunology, molecular biology, systems biology and animal modeling. Our lab focuses on understanding **molecular and cellular mechanisms orchestrating complex phenotypes in chronic inflammation, immunity and cancer** and we have recently acquired an **Advanced ERC grant** to study the **“Contextual specification of fibroblast-driven causalities in chronic intestinal inflammation and fibrosis” (2022-2027)**.

Expressions of interest should be sent electronically to **Prof. George Kollias** (kollias.admin@fleming.gr) and should contain a cover letter outlining the candidate's interests and areas of expertise (maximum 1 page long) and a CV including full publication list and contact information of two or more referees.

Deadline for expression of interest: 20/9/2022
