## ERC-funded postDoc position Tsoumakidou lab | BSRC Fleming

We are seeking a motivated bioscientist to join a highly interactive research team that operates across immunology, molecular biology, systems biology and animal modeling. The ideal candidate should possess a PhD degree in immunology, preferably with a specialization in immunooncology, and should have at least one first author publication (preprints are also acceptable). Strong experience in animal models, gene editing, and/or advanced imaging would be highly valued. Our lab works towards **conceptualizing the antigen presenting cell landscape in solid tumours**. Maria Tsoumakidou recently received 2 million euro to implement her project artFibro, titled **"Artifying fibroblasts: Perturbation modelling in the lung tumor phase space to rewire fibroblasts for immunotherapy"** (2023-2028).

Expressions of interest should be sent electronically to **Dr. Tsoumakidou** ([tsoumakidou@fleming.gr](mailto:tsoumakidou@fleming.gr)) and should contain a cover letter outlining the candidate's interests and areas of expertise (maximum 1 page long) as well as a CV including full publication list.

**Deadline for expression of interest: 23/6/2023**

**Estimated start date: 1/9/2023**
