

Alexandra Boutla

Alexandra obtained both her Undergraduate degree (1997) in Biology, Master's degree (1999) in Molecular Biology and Biomedicine and her Ph.D. degree (2004) in Plant Molecular Biology from the University of Crete. She then pursued her post-doctoral training at the European Molecular Biology Laboratory in Heidelberg, Germany before returning in 2007 to the Institute of Molecular Biology and Biotechnology in Crete as a Collaborating Research Scientist. In 2010, Alexandra moved to the Benaki Phytopathological Institute in Athens as a Technology Transfer Expert before joining George Kollias' lab at the Biomedical Sciences Research Center "Alexander Fleming" as a post-doc. Alexandra has since been involved with the coordination and scientific management of national and European research projects.
