

Alejandro Prados

Alejandro was born in Granada (Spain) in 1985. He obtained his Bachelor's Degree (2008) in Biology, his Master's degree (2009) in Molecular and Cell Immunology and his Ph.D. degree (2013) in Immunology from the University of Granada. Under the supervision of Dr. E.G. Olivares, he focused on elucidating the origin and lineage of stromal cells in human tonsil. In November 2014, Alejandro joined Prof. George Kollias' laboratory where he is currently involved in dissecting the role of stromal cells in the dynamic of gut lymphoid microenvironments.
