

Dr Agni Gavriilidou (Sub-group leader, HDX-MS technology development)

Agni F. M. Gavriilidou obtained a chemical engineer degree from the Aristotle University of Thessaloniki, Greece. She then moved to ETH Zurich, Switzerland in the laboratory of Prof. Renato Zenobi, where she received her Doctor of Sciences studying the structure and function of protein complexes using native mass spectrometry. During her postdoctoral position in OMass Therapeutics, Oxford, UK, she studied pharmaceutical target proteins with native mass spectrometry, DESI and HDX mass spectrometry.
